

About the company

Edelweiss Group AG – Swiss company founded in 2019.

Main activities: geological exploration, mining, mineral extraction, supply of industrial and precious metals.

The company is present in several countries in Europe, Asia and Africa: Germany, Switzerland, Poland, Russia and others.

Edelweiss Group AG is the developer of a unique technology for the environmentally friendly extraction of fine and ultra-fine gold and other valuable resources from waste rock. This technology makes it possible to extract up to 30% of the gold from the deposits of the mines. The number of such landfills is now in the millions of tons worldwide.

Edelweiss Group AG has certified industrial and precious metal reserves of more than 10,000,000,000 (ten billion) euros.

SERVICES
